SUMMARY

Results-driven Software Engineer Intern at Amdocs with hands-on experience in backend engineering, full-stack development, and AI-powered applications. Skilled in React.js, Node.js, Express.js, MongoDB, SQL, and REST API development with experience optimizing enterprise validation workflows and production systems. Built scalable AI solutions using RAG, LangChain, FAISS, and LLM integration. Strong foundation in software engineering, database optimization, and problem-solving with a passion for developing scalable and high-performance applications.

SKILLS

Languages : Python, SQL, Java, JavaScript

Frontend : React.js, Responsive Web Design, Component-Based Architecture, UI Development, HTML, CSS

Backend : Node.js, Express.js, REST API Development, API Integration, Authentication & Authorization, MVC Architecture

Databases : MongoDB, MySQL, Oracle DB, Query Optimization, Database Management, RAG, LangChain, FAISS, LLM Integration

AI & Generative AI : RAG, LangChain, FAISS, LLM Integration, Prompt Engineering, N8N Workflow Automation

Software Engineering : OOPs, SDLC, Debugging & Troubleshooting, Performance Optimization, Problem Solving, Agile Methodology

Tools : Git, GitHub, Linux, Unix, Power BI, VS Code, Postman, JIRA, Agile/Scrum, Claude Code, Cursor AI

EXPERIENCE

Amdocs Development Centre India LLP

Jan 2026 – June 2026

Software Engineer Intern

Pune, India

- Constructed backend validation workflows for enterprise systems processing high-volume transactional data.
- Optimized SQL queries and validation logic to improve data consistency and processing efficiency.
- Applied automated validation scenarios for logical date handling, improving system reliability.
- Debugged and resolved production-level issues in a high-availability environment.

Codtech IT Solutions Private Limited

Aug 2025 – Sep 2025

Full-Stack Developer

Remote

- Developed scalable full-stack applications using React, Node.js, and MongoDB.
- Designed REST APIs and optimized backend performance, reducing response time by 30%.
- Enforced efficient frontend-backend integration for improved application scalability.

LetsGrowMore

Jan 2025 – Feb 2025

Web Developer Intern

Remote

- Built responsive UI components and enhanced usability across web applications.

PROJECTS

AI Knowledge Search Bot | RAG, LangChain, FAISS, N8N, LLM Integration

- Engineered a modular RAG pipeline (embedding → FAISS retrieval → LLM generation) for semantic search over high-volume document processing.
- Designed scalable ingestion and indexing workflows supporting concurrent multi-user queries with low-latency responses (< 2s).
- Integrated N8N orchestration to automate query workflows and backend processing pipelines.
- Optimized retrieval and vector indexing strategies, enabling extensible architecture for large-scale usage.

Subscription Manager with Money Leak Detection | React, Node.js, Express.js, MongoDB

- Developed a full-stack system to track subscriptions and analyze recurring spending behavior using React, Node, and MongoDB.
- Created REST APIs for subscription lifecycle management and automated renewal alerts.
- Executed rule-based anomaly detection to support data-driven financial decision-making.
- Built dashboards for real-time insights with streamlined data aggregation and visualization.

Personal Knowledge Graph Builder | React, Node.js, MongoDB, REST APIs

- Designed a graph-based system to represent interconnected knowledge using node-edge relationships.
- Engineered REST APIs for relationship mapping, tag-based retrieval, and efficient graph traversal.
- Optimized MongoDB schema for fast querying of complex, linked data structures.
- Implemented interactive visualization for real-time exploration of knowledge connections.

EDUCATION

Bharati Vidyapeeth's College of Engineering for Women

Aug 2022 – Jun 2026

Bachelor of Engineering in Information Technology

Pune, Maharashtra, India

ACHIEVEMENTS

NES Innovation Awards 2026 : Named a Top 50 Finalist

Amdocs Recognition : Awarded Certificate of Appreciation (IWD 2026 Initiative) in April 2026

Project Competitions : Participated in Project Nexus 3.0 National Level Project Competition at AIT Pune
